MAYSVILLE, KY., THURSDAY, OCTOBER 23, 1902.

NUMBER 286.

OPERATING RESUMED.

Miners Returning to Former Positions
In the Collieries.

MITCHELL PREPARES FOR COMMISSION

Feeling Exists Between Union and
Nonunion Men—Arbitrators Will
Meet Friday—Condition
of the Miners.

Wilkesbarre, Pa., Oct. 22.—Thousands of men have begun work repairing the mines and placing the collieries in condition for the general resumption of coal mining, which will take place throughout the anthracite region. Those men who are directly engaged in cutting and handling coal will not under the decision of the convention return to the mines until Thursday. While there were thousands of men who were able to again begin earning their daily bread there were hundreds who were disappointed when they applied to the superintendents of the collieries where they were formerly employed. They were principally steam men engineers, firemen and pump runners who struck on June 2 for an 8-hour day, and also help the miners within their battle. These men wanted their old places back, but in many instances the company officials refused to discharge those who stood by them during the strike. There were many in the Wyoming valley, however, who were fortunate enough to find employment.

The company officials maintain they will not discriminate against union or nonunion men, and that work will be given all when there are vacancies. During the strike the companies were compelled to employ many incompetent men to help keep the mines free from water or from "squeezing" as a result of the lack of proper timbering. The majority of these workmen are still in the employ of the companies and strikers feel they will gradually be dismissed and the more competent workmen engaged. A mine worker who came into the union headquarters from South Wilkesbarre said: "The superintendents are turning down a good many men on the ground that they are not needed. This is only a bluff, and they will be glad to get our men in a day or two. The workmen they have are in most cases green, and will not be tolerated about the collieries when the miners begin working full time to catch up with the demand for coal. The companies will not take the risk of having men killed or mines wrecked through the mistakes of some new man." Although the strike is over, the path of the nonunion workmen is still a thorny one. They are disliked by the unionists, and it is not expected the relations between them will be improved when they get into the mines together. Reports were received here that scores of nonunion men have given up their positions and are leaving the region.

President Mitchell began the work of preparing the miners side of the case for presentation to the arbitration committee. He will be the leading representative of the workmen before the tribunal, and will gather around him such experts in anthracite mining as will be necessary to properly present the case to the commission. He said he did not know when he would make his first appearance before the commission.

Delay in Operating.

Pottsville, Pa., Oct. 22.—Several of the collieries in the Schuylkill region are not in condition to resume full handed, and some workmen will be obliged to wait for some weeks and perhaps months before they can be reinstated. This number, however, will be comparatively small. Many of the pump runners' engineers and others have already returned to their posts and are working.

House Dynamited.

Pottsville, Pa., Oct. 22.—The homes of Mrs. Harry Schrodong and Chas. Schlerer at Port Carbon, Pa., were badly damaged by dynamite. The house of Peter Weaver escaped a similar fate because the fuse to the explosive did not burn its full length. Mrs. Schrodong's two sons and the other men named were nonunion workmen.

Arbiters Meet Friday.

Washington, Oct. 22.—Acceptances have been received by the president from all the members of the coal strike arbitration commission. Each one has indicated his intention of being present at the preliminary session of the commission to be held on Friday morning.

Join Other Operators.

Hazleton, Pa., Oct. 22.—John Markle

of Jeddo, the independent operator, has made the following statement: "There seems to have been question as to our position regarding the arbitration commission. We will abide by the decision of that commission under the conditions set forth by the presidents of the leading coal corporations." G. B. Markle & Company have issued a notice that all their men desiring to return to work shall make application at the Jeddo office.

AGAINST AMERICAN INVASION.

Carnegie Thinks Europe Should Form a Union—Degrees Conferred.

St. Andrews, Scotland, Oct. 22.—Andrew Carnegie has been formally reinstated as rector of St. Andrew's university in the presence of a large and brilliant assemblage over which Principal Donaldson presided. In Mr. Carnegie's rectorial address he appealed to Emperor William to evacuate the creation of the United States of Europe, as an industrial union, and as the only method of repelling American invasions of trade.

The honorary degree of doctor of laws was subsequently conferred by St. Andrews on Mr. Carnegie, Ambassadors Choate and White, Professor Alexander Graham Bell of Washington and Henry White, secretary of the United States embassy in London.

Large Masonic Increase.

Columbus, Oct. 22.—Representative Masons from all over the state arrived in Columbus to attend the meeting of the Grand lodge, which began its sessions at the Chittenden hotel. It is estimated that 700 or 800 delegates arrived for the meeting. The meeting began at 10 a. m. and the reports of the grand master, secretary and treasurer were read. Governor Nash delivered an address of welcome, which was greeted with applause. The report of the grand secretary showed a gain of 3,000 members within the year, making a total membership of 51,374. Several hundred took a special train to Springfield to visit the Masonic home.

Twenty Million Days Lost.

Washington, Oct. 22.—The annual volume on the mineral resources of the United States for 1901, prepared by Dr. David T. Day of the geological survey has been sent to press, and will be issued soon. An interesting feature of the report is a compilation of statistics showing the number of working days lost in strikes in the coal industry. These figures include the present year, and are brought up to date. The total number of days lost for the present year is placed at twenty million days, compared with 733,802 days in 1901, 4,878,102 in 1900 and 2,124,154 in 1899.

Will Resist Application.

Harrisburg, Pa., Oct. 22.—Governor Stone has requested Attorney General Elklin to appear with the judge advocate generals of the division of the Second brigade, before Judge Maier, at Pottsville, next Monday, and resist the application which has been made for a writ of habeas corpus on Colonel Rutledge of the Eighteenth regiment for the surrender for trial of Private Wadsworth, who is charged with shooting William Durham at Shenandoah while on sentry duty.

Found Guilty of Murder.

Indianapolis, Oct. 22.—The jury in the case of the state against Joseph Spaulding, colored, charged with the murder of Raphaelo Compeleto, an Italian fruit peddler, returned a verdict of murder in the first degree. Spaulding's punishment was fixed at imprisonment for life. Eugene McGinnis, another negro indicted for the murder of Compeleto, will be released.

Wanted For Embezzlement.

San Francisco, Oct. 22.—Robert Zatafame, a young man who is under arrest here on telegraphic instructions from the east, is wanted for the alleged embezzlement of about \$10,000 from E. Cardova, the New York representative of the European house of R. Faban & Company. Pending the arrival of an officer from New York, Zatafame will be detained at the city prison.

Plasterers Will Strike.

New York, Oct. 22.—After voting not to accept an ultimatum from their employers 1200 plasterers have decided to strike. Laborers to the number of 400 also will be affected. The employers' ultimatum was a scale of \$5.50 instead of \$6 a day and the right to select their own foremen. Work on many buildings will be interrupted.

Will Manage Cup Defender.

New York, Oct. 22.—C. Oliver Iselin will be the managing owner of the new boat which the Herreshoffs are to build for the America's cup. He was in full control of the Vigilant that defeated the Valkyrie II, was managing owner of the Defender that beat the Valkyrie, the third, and also of the Columbia, winner over Shamrock I.

PASSED THE CODE BILL

Special Session of the Legislature
Has Adjourned.

NEW GOVERNMENT OF OHIO CITIES.

Republicans Who Voted Against the
Bill Change Their Votes—Session
Lasted Nearly Two Months.

Columbus, O., Oct. 22.—At high noon the special session of the legislature came to an end, the purpose for which it was called having been finally consummated after a session of nearly two months.

The municipal code bill has passed both houses, has been signed by Speaker McKinon and Lieutenant Governor Gordon and is therefore now a law.

The senate, by a vote of 21 to 12, adopted the report of the conference committee on the municipal code, and the house, by a vote of 65 to 35, concurred in it. The senate also concurred in the house amendments to the Royer bill, repealing the Royer act, which limited the jurisdiction of the supreme court, and that measure is now a law.

It was expected that all Democrats in the senate would vote against the bill, as they did, but Senators Burnham, Connell, Chamberlain and Judson (Reps.) also cast their votes against it, while Senator Wirt was absent. The vote stood 16 to 16 at rollcall and the report was rejected. After a conference the Republican senators who registered against the code changed their votes, and the result was recorded 21 Republicans voting for and 12 Democrats against it.

In the house, when the committee's report was presented, the reading of the code was dispensed with. Messrs. Garrison, Bracken and Stage (Dems.) spoke against the measure, and then the rollcall was demanded. One Republican, Mr. Price of Athens, voted against the code, but later changed his vote. Three Democrats, Messrs. Partington of Shelby, Clyburn of Highland and Sharp of Fairfield, voted for it. There were 64 votes cast for and 35 against the report.

The first election under the new code will be held the first Monday in April and the new officers will take their seats the first Monday in May. All present city officers go out, except in the police, fire and health departments, where they can be removed only for cause.

Present councils redistrict the cities and fix the number of members of the boards of public service and public safety and the compensation of all the new officials to be elected and appointed under the provisions of the code.

FIVE ARE DEAD.

Fire Causes Loss of Life and Large
Property Damage.

Chicago, Oct. 22.—Five persons are known to be dead, while 17 are unaccounted for as a result of the fire which destroyed the plant of the Corn Products company. Four of those unaccounted for are thought to be alive, as three men were seen escaping down the water pipe during the progress of the fire, and were seen to jump into the river, and it is supposed they will be found at their homes. The fire loss will reach \$400,000.

Molineaux Trial Proceeds.

New York, Oct. 22.—Dr. E. Styles Potter, at the Molineaux trial, testified to being called to attend Mrs. Adams, but when he arrived at her apartments she was dead. Dr. Potter could not recall anything Mrs. Rogers had said to him, but he did have an idea that she had said something about Cornish being sick. He had lost his notes since the last trial. He said that these notes might have reminded him that Mrs. Rogers said to Cornish: "Don't have this made public. You know why." Asked by former Governor Black if these facts had anything to do with the loss of the witnesses' notes and his inability to remember what was said by Mrs. Rogers and Cornish, Dr. Potter said he could not account for the loss of his notes.

Glasworkers' Strike Ends.
Pittsburg, Oct. 22.—The strike of the employees of the MacBeth-Evans Glass company, the chimney combine, which affected 900 skilled and 3600 unskilled men, was settled and work will be resumed this week. The settlement was a compromise by which the workers accept a six-skim rule instead of three skins, demanded by them originally.

Maud Kiehl, 18, widow, in jail at Syracuse on charge of poisoning her brother-in-law, has denied her guilt. Previously she would not talk.

REJECTS THE TREATY.

Vote to Cede Danish Islands to
United States Tie.

Copenhagen, Oct. 22.—The landsting rejected the second reading of the bill providing for the ratification of the treaty between Denmark and the United States in regard to the cession of the Danish West Indies to the latter country. The vote stood 32 to 32, a tie. The announcement caused the greatest excitement in the house, and demonstration on the part of the spectators.

In the voting there was one abstention, the Rightists and two Independent Conservatives opposed the bill. The Leftists and six Independent Conservatives supported it. The vote was taken without any debate and the result was greeted with mingled cheers and shouts of disapprobation. Crown Prince Frederick, all the ministers and many members of the diplomatic corps and members of the folketing were present. The public galleries were crowded.

Created No Surprise.

Washington, Oct. 22.—The state department was advised of the action of the landsting in rejecting the treaty of cession. The action causes little surprise. The officials here are not precisely advised as to the legislative possibilities in Denmark, but even assuming that action is final for the present session, they are disposed to view the situation philosophically resting in the belief that it will only be a short time before Denmark will tire of making good a deficit in the revenues of the islands and let us have them.

Questions the Premier.

London, Oct. 22.—William O'Brien created considerable excitement among his fellow Nationalists in the house of commons by requesting Premier Balfour regarding President Roosevelt's letter to the convention of the United Irish league at Boston, Mass. Mr. O'Brien asked the premier if he had observed Mr. Roosevelt sent a letter and whether in view of future friendly relations between the United States and Great Britain he could make any announcement that this country was not indisposed to learn wisdom regarding Irish affairs from the head of a great and friendly nation. The speaker promptly ruled the question out of order.

Probably Fatal Shooting.

Pittsburg, Oct. 22.—S. S. Duncan, superintendent of the city hospital of Louisville, shot and probably fatally wounded Bruce Heade. Later Duncan surrendered to the police, but would give no reason for the shooting. It is supposed the attempt at murder was made to adjust some wrong done in Louisville, where both men are from. It is said Duncan approached Heade, and, making some inaudible remark to him, pulled a revolver and fired, the ball striking Heade in the breast. Duncan turned without a word, and his victim fell to the ground.

Two Were Killed.

Harrisburg, Pa., Oct. 22.—Two men were killed, one was fatally injured and two others were seriously injured in the bridge and construction department of the Pennsylvania Steel works at Stoltz, near here. The accident was caused by a falling girder.

The girder on which they were working fell with them, and the others piled on top of it. Fetteroff was crushed to death and Hilt died soon after being taken out of the mass of steel.

Report Was Exaggerated.

Paris, Oct. 22.—The police commission attached to the Elysee palace says the report of the alleged attempt of a dangerous anarchist to seek an opportunity to assassinate President Loubet is much exaggerated. The facts are that a man of unbalanced mind tried to climb the railing in front of one of the gates of the Elysee beside a sentry box. The sentry ordered him away. The man talked incoherently and finally had to be removed.

Giant Builder Dead.

Binghamton, N. Y., Oct. 22.—George Hull, who built the "Cardiff Giant," is dead. Hull, who was something of an inventor, was credited with manufacturing in 1868 the figure mentioned. It was said to have been made from stone secured near Fort Dodge, Ia. "The Cardiff Giant" was taken to Cardiff, the story runs, and was later dug up as a relic of prehistoric races. It caused considerable speculation at the time and was widely discussed.

Five Were Drowned.

New York, Oct. 22.—Captain Salick of the Hamburg-American steamship Valescia, the chief engineer and four seamen have been drowned here, says a cable dispatch from Willemsstadt. The Valescia left Hamburg Sept. 16 for the West Indies. She is a passenger and freight ship. No particulars of the accident are known.

UNFAVORABLE REPORT

King Oscar Will Decide Against the
United States.

SAMOAN QUESTION IN RECALLED.

Question of Damages and Landing
of Troops Will Be Favorable
to Germany—Result of
Mataafa Revolution.

Washington, Oct. 22.—King Oscar of Sweden and Norway has decided the Samoan controversy in favor of Germany.

This fact became known on the return of Mr. Grip, the minister of Sweden and Norway from a long visit to his home. Mr. Grip called at the state department, but did not, of course, disclose the decision of his sovereign, which must be formally presented simultaneously to the three powers concerned. The announcement will be astonishing to the government of the United States and Great Britain, which were confident that they would establish fully the legality of the propriety of the joint landing of marines at Apia, in 1899, to sustain the decree of the Samoan supreme court and end the revolution.

The Samoan dispute grew out of the concerted action of Rear Admiral Kautz of the United States navy and Captain Sturdy of the British navy in leading a combined American and British force at Apia on April 1, 1899, for the purpose of making a reoccupation and breaking up Mataafa's supporters, who were in rebellion against the recognized government. It was on this occasion that Phillip Lansdale, the executive officer of the Philadelphia; Eusign J. R. Monaghan and two enlisted Americans, and Lieutenant Freeman and two British sailors were killed.

The United States ship Badger was promptly sent to the scene, carrying an international commission, composed of Bartlett Tripp, representing the United States, and Baron Von Sternberg, the German commissioner, and C. N. Elliott, the British commissioner. Claims amounting to nearly \$30,000 were filed by German, French, British and American residents on account of damages caused by the landing party. As the chief result of the investigations of the commission, the tripartite agreement of 1889 was abrogated, the islands being divided between the United States and Germany, while Great Britain withdrew. A convention was signed at Washington on Nov. 7, 1899, submitting the claims of the Samoan residents to the king of Sweden and Norway for arbitration, for the main questions being whether the military action of the United States and Great Britain had been warranted. The aggregate of claims, most of them German and American, rose to about \$300,000.

In July, 1900, King Oscar consented to act as arbitrator, and last spring the briefs containing the arguments on the main points at issue and the schedule of claims were submitted to him.

Correspondence between the representatives of the three powers in Apia at the time, as spread on the records, were extremely bitter and full of reflections on the integrity and honor of the nations concerned, and there were frank declarations that if the naval forces of the United States and Great Britain had not been supreme in the absence of German warships a clash must have occurred which would have brought the United States and Germany to the verge of war.

The claims, which are incidental to the larger question, which were filed by citizens of the United States, Germany, Great Britain, France, Austria, Denmark, Sweden and Norway, Portugal and Switzerland, and natives of Samoa. Citizens of the United States ask for \$77,605 to reimburse them for the losses of their bombardment; subjects of Germany want \$103,918; subjects of Great Britain \$6,285, and citizens of France \$26,11.

Responsibility On Motorman.

Boston, Oct. 22.—In a report upon the accident in which President Roosevelt's bodyguard, William Cragg, was killed and the president and Secretary Cortelyou was injured at Pittsfield last month, made public by the board of railroad commissioners find that the responsibility of the accident rests with the motorman of the electric car which ran into the president's carriage. Euclid Madden was the motorman, his name is not mentioned in the report.

Roosevelt's Poll Tax.

New York, Oct. 22.—Oyster Bay's tax roll, just completed for the year, shows an assessment against President Roosevelt of \$40,000.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

THURSDAY, OCTOBER 23 1902

DEMOCRATIC TICKET.

For Congress,
JAMES N. KEHOE,
of Mason.

For Judge of the Court of Appeals,
THOMAS H. PAYNTER,
of Greenup.

THE WEATHER RECORD.

[For the 24 hours ending at 6:30 a. m.]
State of weather.....Clear
Highest temperature.....78
Lowest temperature.....47
Mean temperature.....62.5
Wind direction.....Southerly
Precipitation (inches) rain.....1.26
Previously reported for October.....1.26
Total for October to date.....1.26
Oct. 23d, 9:30 a. m.—Fair and warmer to-night.
Friday fair, warmer in east portion.

THE Democrats of Mason County should work from now on to get out the full vote Nov. 4th for Kehoe and Paynter.

MAYSVILLE and Mason County are proud of the splendid record made by Hon. James N. Kehoe in Congress. He deserves a handsome endorsement, if any office-holder ever did, and his home city and county should take especial pride in rolling up the largest majority ever cast for any candidate.

It would be base ingratitude on the part of Maysville and Mason County if they fail to manifest a proper appreciation of Hon. James N. Kehoe's splendid work in Congress. Maysville especially owes him much for what he has done for her. The people of his home city and county should rally en masse to his support on Nov. 4th.

REPUBLICANS are bending their every effort to encompass the defeat of Judge Paynter. They want to Republicanize the Court of Appeals and save some of the men implicated in the cowardly assassination of Goebel. That's their object in a nutshell. Their talk of a non-partisan Court of Appeals is all bosh. One rarely finds a non-partisan Republican.

In his capacity as underwriter of the big harvester combine, recently capitalized at \$120,000,000, J. Pierpont Morgan is accused of sharp practices, according to gossip in La Salle street, says the Chicago Inter-Ocean. The statement is made that in addition to his contract fee of \$1,500,000, which he received for promoting the merger, he made \$3,500,000 by purchasing an independent company and selling it to the trust. This surely is not true, because Mr. Morgan says he has all the money he wants and is simply trying to better business conditions.

"STAND PAT."

"Stand Pat" is Senator Hanna's campaign cry this year, and that means it is the cry of the Republican party. "Let well enough alone, they repeat in a chorus. But let's look into this matter a little more closely.

The sugar trust holds the legislative branch of this mighty Government in the hollow of its hand and levies unearned tribute from every table in every State and territory in the Union. It cries "stand pat." Keep on letting well enough alone.

The beef trust has made the dinner pail look like the "shadow of a shade." Keep on letting well enough alone. "Stand pat."

As a result of the coal strike, the coal combines have been harvesting dollars by outrageous prices on the supply they had on hand, while poor people could whittle for fuel to keep themselves warm. "Stand pat."

The grain and flour trust have made bread hard to get, and grain is always high when the farmers have none to sell. Keep on letting well enough alone.

Democratic sailors and Generals who fought the war with Spain (Dewey, Schley and Miles) have been contumacious and slandered, while Crowninshield and Corbin have been honored and condoned. Keep on letting well enough alone.

The Declaration of Independence and the American Constitution have been ignored and trampled under foot. Keep on letting well enough alone.

Just keep on letting well enough alone.

Were Quietly Married.

DANVILLE, Ky., Oct. 22.—W. Owen McIntyre, a well-known newspaper man of Danville, and Miss Sadie Elizabeth Minor, of Perryville, were quietly married last night. Miss Minor is the daughter of Hon. J. H. Minor, ex-Representative and a well-known politician.

Hickson Pearl, Bill Smith, Walker Reed, Jr., and Dan Gibbs, a quartette of Washington negroes, were arrested Wednesday on charge of selling liquor unlawfully. They will be tried Friday before Squire Dressel.

Born, to Mr. and Mrs. Len. Kidder, of Tuckahoe, a daughter.

Knit Underwear...

Gray, full regular made medium weight fine camel's hair shirts and drawers for men. Shirts are finished with silk fronts and clear pearl buttons—drawers have firm suspender tapes and extra strong gussets in seats. The product of the best mill in America—the most particular and uncompromising manufacturers in respect to quality and finish. Small wonder then their is the best \$1 garment on the market.

Women's vests and drawers, vests with high neck and long sleeves, ankle length drawers with French bands. Both are made of extra heavy fleece-lined cotton and are neatly finished with crochet lace and pearl buttons. 25c each.

Women's heavy fleeced Egyptian cotton vests and drawers. Vests high neck and long sleeves trimmed with silk crochet. French band drawers of ankle length—50c each.

Women's fine ribbed Merino vests and drawers, hand crochet silk trimming. High neck, long sleeve vests, ankle length drawers—\$1 each.

Outing Flannel Gowns, generously cut, heavy quality, double yoke back, turnover collar, felled seams, many pretty striped effects and dainty solid colors. Trimmings of fancy braid and silk colored bands. Two qualities—75c, \$1.

UNION SUITS FOR WOMEN—Nothing better for comfort. No drawers to rip—no shirt to roll up. Likely as not you'd be hard to coax back to two-piece garments after wearing these Union Suits. Comfortable, hygienic and so unlike the usual garments offered at the price, they are worth a look at least. Four sorts, 50c, 75c, \$1, \$1.50.

The children are not forgotten. We have provided for their needs in several qualities in both single garments and union suits at 25 and 50 cents.

Handsome Golf Vests in the popular red and green, also black and white, single or double breasted, \$1 to \$2.

Golf Waists, very new and chic, \$4.50 and \$6.

D. HUNT & SON

FARMERS,

You'll Have To Pay More For Harvesting Machines Hereafter.

Morgan's Big New Trust Will Raise Prices. The Combine Controls World's Output.

CHICAGO, October 21.—The International Harvester Company, capital \$120,000,000, which is to control the world's output of harvesting machines, is being put into shape rapidly. All of the details have been arranged, and all of the various plants are now the property of the International Harvester Company.

The amount raised for financing the combination was \$50,000,000, half of which is to be devoted to paying off minority stockholders in the companies merged, the balance to form the working capital of the big corporation. Cyrus McCormick is the heaviest individual stockholder, with William Deering ranking second. There is no official news being given out as to the future, but it is generally believed that the working contracts went into effect September 1. The Milwaukee Harvester Company's official staff has been reduced to one-fourth.

Although the stock of the new company will be offered for sale there is no intention of listing it on any exchange. In this particular the new company will follow out to a certain extent the exclusiveness which has always marked the progress and management of harvester companies. The general price of harvesters and binders will be raised to \$125 or thereabouts. Last year one or two of the firms in the combine sold these machines for less than \$100.

It is figured that the earnings of the new concern for the initial year ending September 1, 1903, will be in excess of 40 per cent. on the capital stock, taking the business of all companies for the previous year as a basis. The intention at present is to pay 12 per cent. annually, and the balance over and above dividends will go into the surplus.

In its financial aspect the company is the strongest corporation in the United States. Plans for conducting the business on economical lines are already under way. In its "general agents" department the force will be reduced from 300 to 75, effecting a saving of at least \$500,000 annually. The new concern has little to fear in the way of opposition. It controls the right on harvesting patents which will not expire for many years. The principal reason for acquisition of the Milwaukee plant was principally in the valuable patents controlled by it. At present the companies interested are apparently acting independently.

HON. JAMES D. BLACK.

One of Kentucky's Able and Eloquent Orators to Speak in Maysville, October 24th.

Hon. James D. Black, of Barbourville, will speak in this city Friday evening, October 24th, on the political issues of the campaign.

Judge Black is one of Kentucky's ablest men, and is an eloquent speaker. He has been prominently mentioned as a candidate for Governor.

The Democrats of Maysville and Mason County are urged to turn out. The public invited.

E. Bailey McNutt has sold to Peter White two lots at Minerva for \$1,200 cash.

Mr. William McClelland was awarded four premiums on his handsome Red Cloud gelding at the Aberdeen fair last week.

Messrs. John C. Kirk, of Washington, and J. B. Furlong, of Orangeburg, are members of the present U. S. grand jury at Covington.

Rev. Dr. Waller, assisted by Rev. W. T. Spears, will begin a meeting at the Valley Presbyterian Church in Lewis County to-morrow, to continue over Sunday.

More than one-half the numerical strength of the Christian Church in the United States is found in the five States of Ohio, Indiana, Illinois, Missouri and Kentucky.

The ladies of the Central Presbyterian Church will, on Friday evening, at the residence of Dr. J. B. Taulbee, give a supper from 5 to 10 o'clock. Price 25 cents. Music and recitations during the evening.

The newly opened Old Masons' Home, near Shelbyville, is declared to be large, well-equipped and a credit to the craft. The Grand Master inspected it July 24, and found six inmates ranging in age from seventy-five to eighty-two years.

Messrs. A. H. Calvert, of North Fork, E. S. Montgomery, of Mt. Olivet, S. K. Browning, of Sherburn, John Ingram, of Flemingsburg, and N. A. Tilton, of Mt. Olivet, are members of the petit jury at the present term of the U. S. Court at Covington.

In Bath, Rev. E. L. Sanford, of Owingsville, assisted Rev. W. W. Spates in a meeting at Bald Eagle, which resulted in thirty-nine confessions of faith, twenty-six of whom were baptized in Flat Creek. It is proposed to build a Methodist Church at Bald Eagle.

Taylor at "Ingianny" appears to have gone into his hole since he cut that caper on the street car. Taylor at Washington though isn't going to make a fool of himself by getting drunk, whatever else he may say or do that savors of foolishness. He will sell you twenty pounds granulated sugar for \$1, though, and ten pounds of Golden Rio, Arbuckle or Lion coffee for \$1.

Rev. W. S. Priest, formerly minister of the Christian Church, now in charge of the church at Atchison, Kansas, was elected one of the Recording Secretaries of the American Christian Missionary Society at its annual convention in Omaha this week. The address of the convention was by the Rev. E. L. Powell, of Louisville, on "Christian Union, the Paramount Issue," in which Mr. Powell presented a plan for the union of all denominations "for service" in a manner that will in no way affect their denominational work.

At 10 o'clock Saturday morning, just one year to the hour from the time the Paris court house caught fire and burned down, the county of Bourbon, in connection with the city of Paris, filed suit against the Parle Water Works Company, claiming damages to the amount of \$100,000. The petition claims a failure on the part of the company to furnish a sufficient force of water to cope with fires, and claims it was on this account that the court house was totally destroyed. It is claimed also that the quality of water furnished is not as pure and wholesome as the contract calls for. Both sides have retained prominent legal talent, and the fight will in all probability be a bitter one.

"The Only Way"

The only way by which we secure our immense trade is by having the goods that attract the people. The dressy fellow who examines "our kind" of Clothing instantly recognizes the features that are essential to his satisfaction. A try on completes the job.

Our this fall and winter stock contains so many novelties in Children's, Youths and Men's Suits and Overcoats that you can only gain an idea of it by coming in and be shown through.

Our Stein Bloch, Adler Bros. and Garson Meyer lines are the results of honest hand labor intelligently applied by the most skilled workmen in the world.

Our Shoe Department is daily growing. Money back or another pair if they don't give reasonable satisfaction.

You will do yourself injustice and us too if you don't look over our Shirts, Hats, Underwear and Neckwear before you lay in your fall supply.

D. HECHINGER & CO.,

THE HOME STORE.

1902-CITY TAXES-1902

On all not paid on or before November 1st there will be a penalty of 10 per cent. added.

JAMES W. FITZGERALD, CITY TREASURER.

Clothing That's New!

Of the best makers, Hackett Carhart, Broadway, N. Y. Furnishing Goods, of Wilson Bros., Chicago; Hats, of Stetson; Gloves, of Adler. You want to see the Klondyke 25c. Yarn Glove we sell. Also our fifty inches long Overcoat for young men at \$10.

GEORGE H. FRANK & CO.

ADR. LANDMAN.

IMPORTANT DECISION.

Court of Appeals Affirms Judgment as to Building Association Fines.

A decision of importance to building associations was handed down by the Court of Appeals in the case of the Perpetual Building Association of Covington against Theodore Kleimeier and wife. The latter borrowed \$2,500 from the association, the association retaining \$98.76 for premiums. He failed to pay \$3 weekly and the association added fines of 50 cents weekly. The association finally entered suit in the lower court.

Kleimeier's defense was that plaintiff's claim was largely made up of usury and fines to which it was not entitled by law, though contracted for, and demanded that the premiums and fines should be credited off the loan.

The opinion says that the defendant is entitled to have all the payments made by him applied first to the extinguishment of the interest and then the principal, and that all charges against him by the company in excess of 6 per cent. interest should be disallowed.

AWARDED \$6,000 DAMAGES.

Judgment Against Georgetown Water Company for Failing to Maintain Sufficient Pressure.

GEORGETOWN, KY., Oct. 21.—In the Circuit Court here this afternoon in the case of Mrs. Mary Cecil Cantrill against the Georgetown Water Company and R. W. Nelson, of Newport, the jury awarded the plaintiff \$6,000 damages.

In January, 1901, Mrs. Cantrill's residence and a portion of its contents were destroyed by fire. It was one of the most handsomely furnished homes in the State, and Mrs. Cantrill brought suit against Mr. Nelson, who was the sole owner of the water plant, for \$12,000 for loss on the furniture on the ground that a sufficient pressure was not maintained in the water mains to put out the fire.

The case was tried before Special Judge James Y. Kelly and consumed more than a week. Mrs. Cantrill is the wife of Circuit Judge James E. Cantrill.

Mr. Jesse Ham had a very narrow escape Tuesday afternoon while employed at Mathews & Co.'s saw mill. He was setting the main shaft when his clothing was caught in the machinery and he was whirled violently around the shaft three times. His clothing was finally torn loose, releasing him from the grip of the machinery, and this was all that saved his life. He was considerably bruised, but escaped without serious injury. Mr. Ham moved here from Carlisle last spring.

To those who have not availed themselves of our clock bargains will say we will continue this clock sale for awhile longer. Never have such handsome clocks been sold for so little money.

MURPHY, the jeweler.

'Squire Pickett was in a very critical condition Wednesday afternoon, but was thought to be slightly improved this morning.
